

FOCUS Dance Center

Season 2020-21 Plan

Responsibility to our Community:

We continue to maintain a hopeful attitude, while also realizing a return to normal times is still indefinite. We would love to be able to resume full in-person classes as soon as possible, but there is at this time no way to do that responsibly until mandates allow and the community is in a better place with respect to Covid-19. The new schedule is expected to be virtual from September through December, however if conditions improve dramatically, we will of course adapt to the new conditions with in-person class opportunities. In any case, we will continue to re-evaluate our schedule as the pandemic ebbs and flows.

The safety of holding in-person classes greatly depends on the number of dancers in the class. We will begin holding in-person private lessons for individual dancers starting Saturday, August 22nd, and customer group privates of up to 4 dancers (please contact FOCUS for more information). We will use a bubble concept where dancers only dance with other certain dancers per an agreement. These bubble privates will be separate from and in addition to the fresh, inspiring Zoom Training Program. Once FOCUS feels it is responsible to do so, we will ease into hybrid classes.

We know everyone is eager to get back to normal in-person classes as soon as possible. It should not surprise you that we want that even more than anyone else. If we could responsibly fully re-open for in-person classes, we would do so in an instant. There are two reasons why this is not possible. First and foremost is the safety and well-being of our dancers, their families, and our faculty. Second is our responsibility to the community. Of course, we could call our classes something other than dance to circumvent state mandates, but it would not reflect the integrity and ethics we work to uphold.

We hope you will join us as we provide the most outstanding virtual dance and fitness experience possible, until the day when we can all be together again in our stunning studio. We will continue to do all we can to make that happen.
